

HYBRIFLEX® Fiber Optic Drop Cable, 2 Fiber, Single Mode, LSZH, Indoor

HYBRIFLEX fiber only, figure-8 aerial drop cable, 2 fiber, single mode with steel strength members, gel free, water blocking, LSZH, indoor cable. Optimized for Radio over Fiber (RoF) applications, for use within the RFS Technologies "Conventional" RoF solution.

FEATURES / BENEFITS

- Low-bend-sensitivity, Single Mode optical fiber provides ensuring future proof connectivity for RoF (and other) high bandwidth, multi wavelength applications
- Two parallel steel wire strength members ensure good performance of crush resistance to protect the fiber
- · Novel flute design, easily strip and splice, simplify the installation and maintenance
- High quality raw material guarantees the long service life of cable
- Flame retardant, LSZH materials for use inside buildings

Technical features
