HYBRIFLEX® Rip Tool

The HYBRIFLEX Rip-Tool tools is designed to cut the armor along the length of HYBRIFLEX armored cables with integrated rip cord. This allows for easy length adjustment on site. May be utilized with any cable size. Use in conjuction with an electric drill

FEATURES / BENEFITS

- **Quick and easy use** - Cuts through jacket and armor along the length of the cable safely and quickly
- **No chance to damage the inner core** - The integrated rip cord is located away from the inner cable elements and close to the inside of the armor
- **No cutting blades to replace -** all cutting done by the integrated rip cord, while the Rip-Tool winds up the used rip cord

Technical features

GENERAL SPECIFICATIONS

Cable Size		All
Type of tool		Rip Cord Removal Tool

MECHANICAL SPECIFICATIONS

Material		Brass
Weight per piece	kg (lb)	0.3 (0.66)

TESTING AND ENVIRONMENTAL

Storage Temperature	°C (°F)	-40 to 85 (-40 to 185)
Operation Temperature	°C (°F)	-40 to 85 (-40 to 185)
Installation Temperature	°C (°F)	-20 to 50 (-4 to 122)
Compliancy		RoHS compliant

All values nominal unless tolerances provided; information contained in the present datasheet is subject to confirmation at time of ordering
