

The HYBRIFLEX preparation tools are developed to make a quick and safe circular cut on HYBRIFLEX corrugated armored cables. This circular cut might be necessary in case of length adjustment. Preparation tools are available for many cable sizes.

FEATURES / BENEFITS

- **Quick and easy use** - Cut through jacket and armor by just two turns
- **No chance to damage the inner core** - The blade position is adjusted in a way that makes it impossible to cut into the inner core
- **Long lasting cutting blades**- Even if worn after many operations, they may be easily replaced
